LOGICKÁ HRA pro jednoho hráče

CÍL HRY

Umístit každého astronauta na jeho vesmírné stanici podle pravidel hry.

OBSAH HRY

- 1 dřevěná hrací deska
- 7 dřevěných dílků astronautů
- 12 plastových vesmírných stanic
- 1 plastový červený kříž
- 30 oboustranných karet výzev

JAK HRÁT HRU

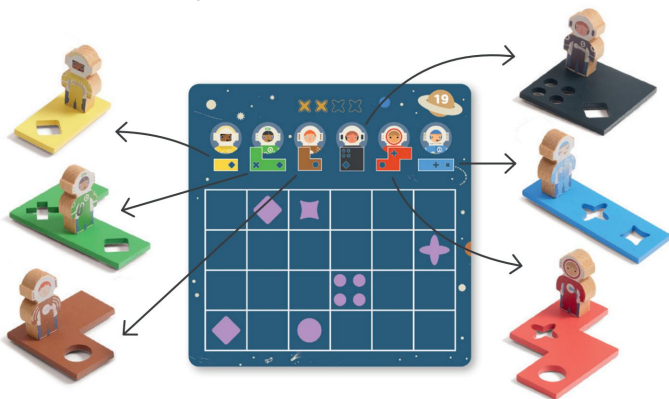

- Položte hrací desku před sebe.
- Vyberte si kartu s výzvou/zadáním.

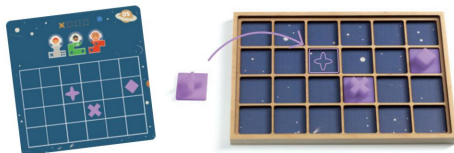

Rostoucí úrovně obtížnosti jsou znázorněny tímto symbolem:

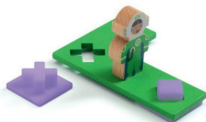

- Vezměte označené astronauty.

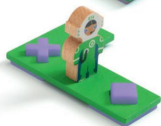

- Umístíte vesmírné stanice do mřížky hrací desky jako znázorněné na kartě s výzvou/ zadáním.

Červený kříž není nádraží.
Je to zakázaná zóna – nikdo tam nesmí!

Každá podložka astronauta (na které stojí) má výřezy ve tvaru různých vesmírných stanic.

Astronaut musí být připevněn na jedné ze 2 možných vesmírných stanic.

- Umístíte astronauty do mřížky hrací desky tak, aby každý z nich byl připevněn k jedné ze stanic, aniž by se překrývaly nebo aby opustily hrací desku.

Příklad:

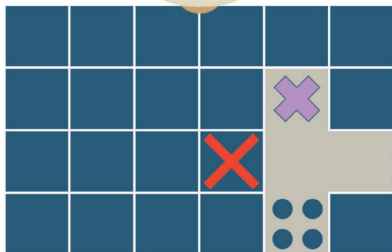

Pro každou výzvu existuje jen jedno řešení!

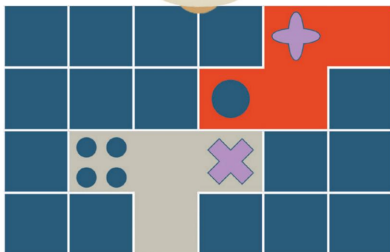

Řešení naleznete na konci brožury.
